Designed to last

Designed for needs

Every piece in the LUNDAGER Home collection is designed with a focus on customisation and adapting styles to meet real needs. Inspired by the Danish spirit of exploring admired cultures, we combine global influences with Scandinavian design traditions and aesthetics. The result is a timeless expression in natural tones shaped by Japandi simplicity and warm Nordic minimalism.

Complete Sets

Our sets are curated within each collection, combining matching designs in different sizes and styles. This makes it easy for you to offer a complete, cohesive look to your customers.

Growing Through Generations

Founded in 1985 by Ove Lundager, our family-owned company has grown from its roots in Western Jutland to become a trusted name in green living. In 2004, we relocated to Odense, where our journey continued.

LUNDAGER Home is a new collection introduced by Oliver Lundager, a journey shaped by the ceramic line first launched in 2016. It carries forward our commitment to thoughtful craftsmanship, natural materials, and enduring design.

Olea
